**THE BENEFITS OF CUSTOM CONNECTORS BY GSN**

Custom connectors by GSN offer a number of advantages. First of all, they exactly fit to a customer's product environment and hence offer structural benefits compared to using a standard connector.

The second advantage is certainly the great value for money provided by GSN. Besides a very attractive product price, GSN also offers product solutions very quickly. Quite often, we even develop totally new and innovative solutions, that go far beyond the first product idea of the customer. Our design-centers in China and Europe welcome your projects.
