K YUNGKU TECHNOLOGY

Professional Solution – Automated Assembly Testing Fixture

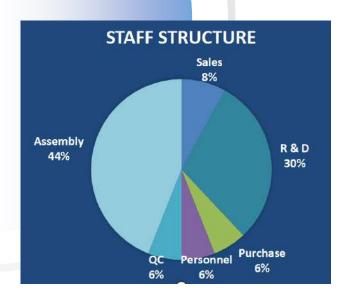

Company Profile

Professional One-Stop EMS Solution - Fixture

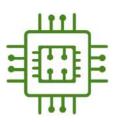

• Smartphone Testing Fixture Solution

• Automotive Testing Fixture Solution

• Electronic Testing Fixture Solution

• Semiconductor Testing Fixture Solution

Corporate Core Value

Efficient Customization

- 3 days for manual
- 10 days for electric

High Accuracy

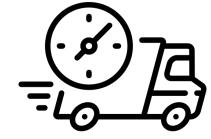

- Tolerance in 0.01mm

High Performance / Price

- Professional team
- Large scale production

Fast Lead Time

- 7 days for manual
- 10 days for electric

Best Service

- Reply in 4 hours
- Complain < 0.5%

Comprehensive Application Scope

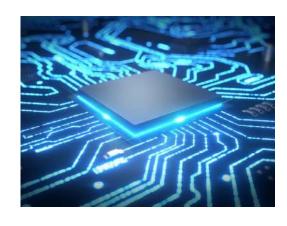

Smartphone Camera

Smartphone Panel

Automobile Camera

Semiconductor

Face Recognition

Drone Camera

Fingerprint Recognition

Intelligent Production

Solution in Smartphone Testing Fixture

Dual Cylinder Moving Module

Application for Smartphone CCM Camera

Optical P Value Adjustable Focus Testing Fixture

Application for Smartphone Fingerprint Testing

ASM AA Fixture (Floating Mode)

Application for Smartphone CCM Camera

Optical Fingerprint G5 Module Testing Fixture

Application for Smartphone Fingerprint Testing

Motor Electric Connection Fixture

Application for Smartphone CCM Camera

Assembled Smartphone Camera Testing Fixture

Application for Camera Standard Testing

Solution in Smartphone Testing Fixture

Smartphone Screen Cell
Soft Needle Testing Fixture

Application for Smartphone Screen Testing

Light Leaking Testing Fixture

Application for Smartphone CCM Camera

Smartphone Screen Testing Fixture

Application for Screen Stability, Reliability Testing

Smartphone Holding Fixture

Application for Smartphone Fixing & Stability

Smartphone Functional Testing Fixture

Application for Dumbphone Function Testing

Foldable Phone Rear Cover Pressure Testing Fixture

Application for After-Sale Service Pressure Creation

Solution in Automotive Testing Fixture

IPU Airtight Testing Fixture

Application for Automotive IPU ECU Airtight Testing

Camera AA Fixture

Application for Automotive Camera AA Testing

Pneumatic Press Fixture

Application for Automotive ECU, IPU Controller

Automotive Camera Fixture

Application for Automotive Camera Testing

Manual Press Fixture

Application for Automotive ECU, IPU Controller

ightness Fixture

Application for Automotive Camera Tightness Testing

Solution in Automotive Testing Fixture

EOL Testing Fixture

Application for automotive ECU / IPC testing

Dual Camera Test Fixture

Application for Automotive Dual Camera or Single AA Test

Aging Test Fixture

Application for Automotive Camera Aging Test

Automotive Camera Airtight Fixture

Application for Automotive Camera Airtight Testing

EOL Testing Fixture

Application for automotive ECU / IPC testing

ECU/IPU Controller Pneumatic Press Fixture

Application for Automotive ECU/IPU Controller Testing

Solution in Automotive Testing Fixture

Central Control PCBA
Burning Fixture

Application for Automotive Main Function Testing

IPU Manual Testing Fixture

Application for Automotive ECU, IPU Testing

Frequancy Needle Fixture

Application for Camera Imitate Connection Testing

Solution in Electronic Testing Fixture

Manual Press Fixture

Application for Screen Testing

Wi-Fi Signal Testing Fixture

Application for Wi-Fi Signal Pin Connection Testing

Automatic Press Fixture

Application for Screen Testing

Screw Locking Assembly Fixture

Application for VR Glasses Locking Screw Testing

Pneumatic Press Fixture

Application for PCBA Testing

Glassess Protection Testing Fixture

Application for VR Glassess Protection during assembly

Solution in Electronic Testing Fixture

Assembled Smartphone Camera Testing Fixture

Application for Camera Standard Testing

PR Axis L Shape Cover Press Fixture

Application for Drone Assembly

Multiple Camera Modules
Assembly Fixture

Application for Camera Curing, Assembly

Dual Cylinder Pressure Fixture

Application for Drone Assembly Protection

FPC Bending Fixture

Application for FPC Bending, Heating and Shaping

Optical Focusing Fixture

Application for Cylindrical Lens Focus Adjustment

Solution in Semiconductor Testing Fixture

Chipset Function Testing Fixture

Application for chipset main function testing

Chipset Knob Testing Fixture

Application for chipset function testing

Chipset Testing Fixture

Application for chipset function testing

Chipset ATE Testing Holder

Application for chipset fixing

Chipset Function Testing Fixture

Application for chipset main function testing while heating

QFN Testing Fixture

Application for QFN chipset

Professional One-Stop EMS Solution - Equipment

• Smartphone Module Testing Equipment Solution

Camera Module Testing Equipment Solution

• 3D Camera Module Testing Equipment Solution

Automotive Camera Module Testing Equipment Solution

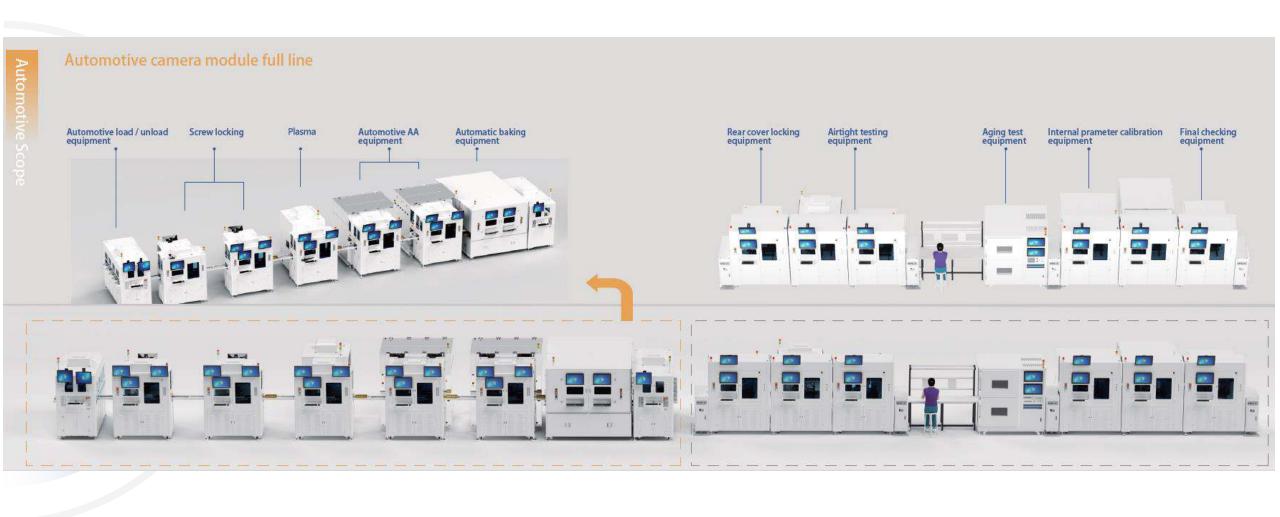

• Fingerprint Module Testing Equipment Solution

Customized Testing Equipment Solution

K YUNGKU TECHNOLOGY Testin

Testing Equipment Solution – Full Automatic Line

K YUNGKU TECHNOLOGY

Testing Equipment Solution – Loading Equipment

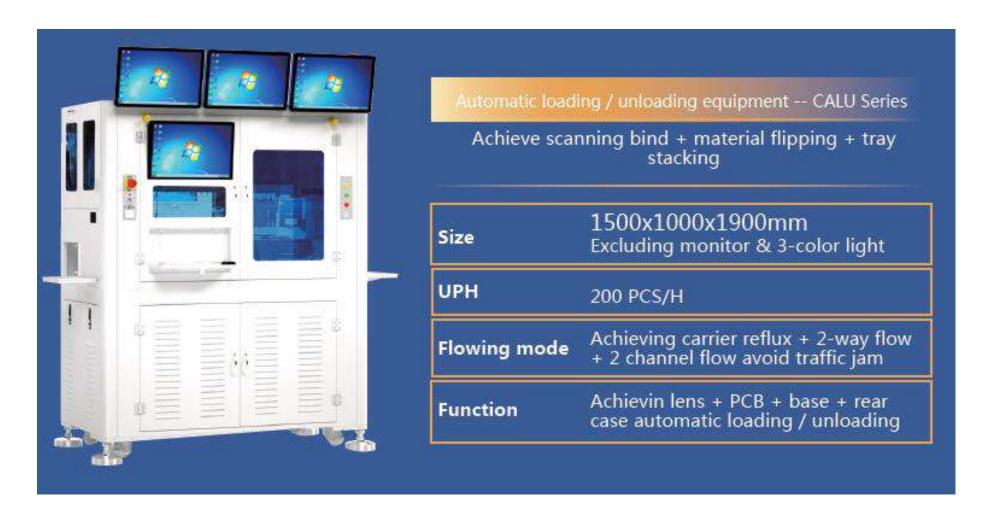

K YUNGKU TECHNOLOGY

Testing Equipment Solution – Auto Loading/Unloading

KYUNGKU TECHNOLOGY Testing Equipment Solution – Automotive AA Equipment

Automotive AA Equipment — AX Series

Achieving aspect rate 4:3 or 16:9 switch, support glued wire checking

Size	1750x1914x2050mm Excluding monitor & 3-color light
UPH	120-150 PCS/H
FOV	65~ 220 °
Testing Item	OC, AA, Black & white field

KYUNGKU TECHNOLOGY Testing Equipment Solution – Automatic AA Equipment

Automatic AA equipment - AX series

Achieving aspect rate 4:3 or 16:9 switch, support glued wire checking

Size	1400x1700x1900mm Excluding monitor & 3-color light
UPH	120 PCS/H
FOV	Up to DFOV 220° 0.8F, compatible 4:3, 16:9, 1:1
Application	Glued wire checking + Plasma + COD + OC + POG + POD

KYUNGKU TECHNOLOGY Testing Equipment Solution – Screw Locking Equipment

K YUNGKU TECHNOLOGY

Testing Equipment Solution – Locking Equipment

KYUNGKU TECHNOLOGY Testing Equipment Solution – Automatic Curing Equipment

Automatic Curing Equipment -- GH Series

Automatic Uploading / Unloading, Curing Time Calculation, Controlling Human Induced Defects

Size	2000x1700x1900mm Excluding monitor & 3-color light
UPH	200 PCS/H
Curing Temperature	Ordinary ~ 150 °C
Temperature Tolerance	+/- 1 °C

KYUNGKU TECHNOLOGY Testing Equipment Solution – Airtight Testing Equipment

Airtight Testing Equipment -- CQM Series

Achieving the leaking, positive & negative pressure automatic testing

Size	1100x750x1900mm Excluding monitor & 3-color light
Function	Achieving positive & negative pres- sure testing, compatible IP69, IP66
UPH	200 PCS/H
Testing Method	Pressure variance measured to settle the leaking problem

KYUNGKU TECHNOLOGY Testing Equipment Solution – Curing Testing Equipment

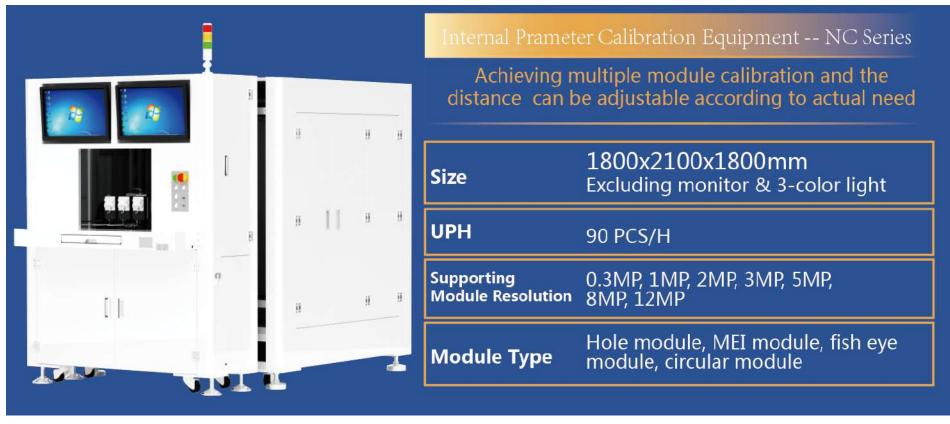

Testing Equipment Solution – Calibration of Intrinsic Parameter

KYUNGKU TECHNOLOGY Testing Equipment Solution – Final Inspection Equipment

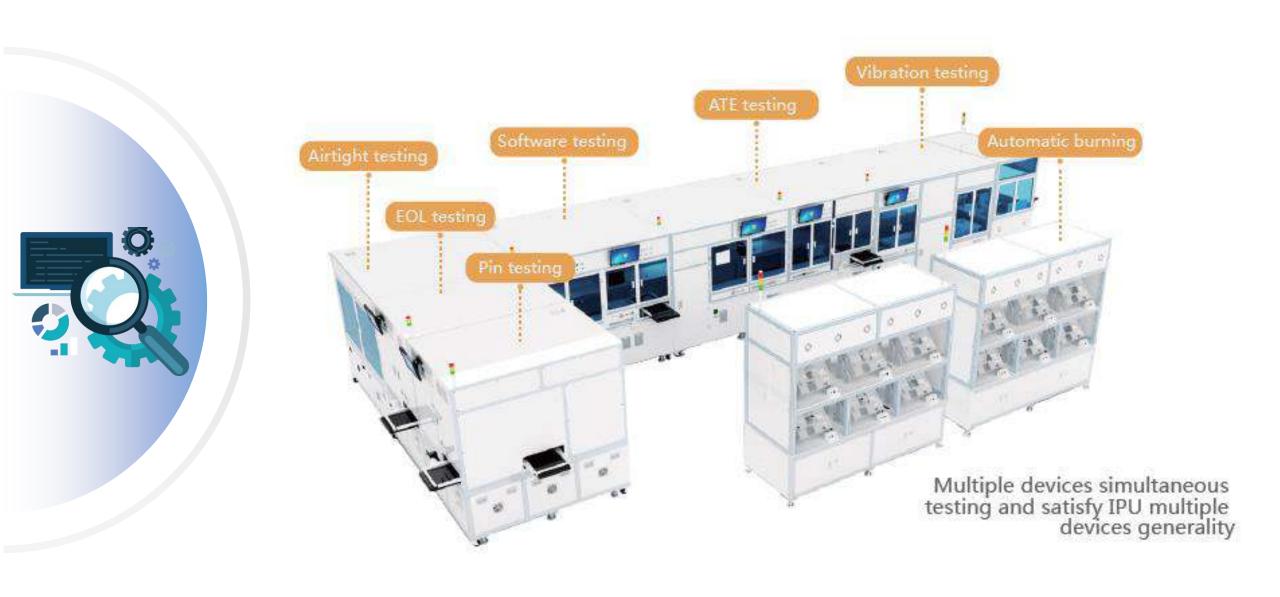

Final Checking Equipment — CVT Series

Achieving aspect rate 4:3 or 16:9 switch

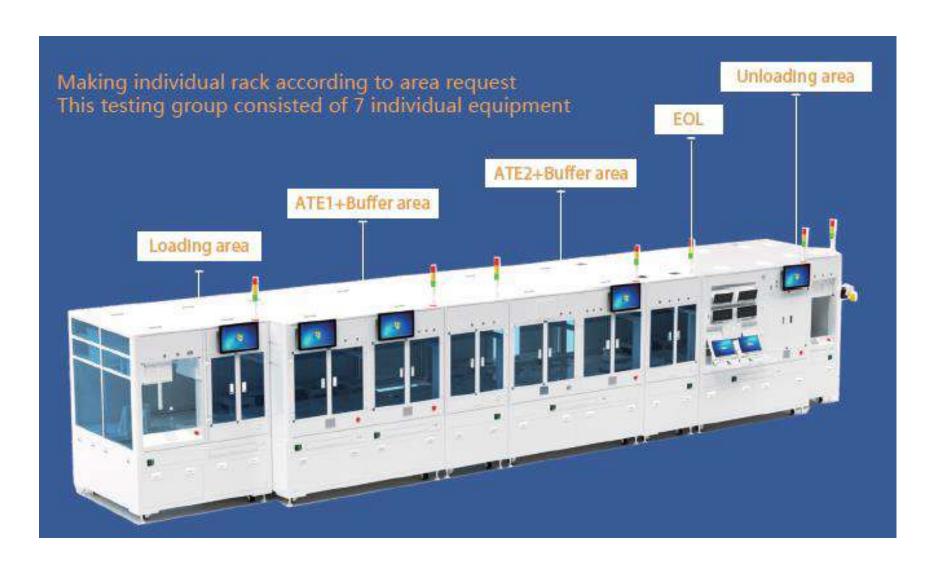

Size	1600x1530x1750mm Excluding monitor & 3-color light
UPH	100-150 PCS/H
FOV	0~ 220 °
Testing Item	Electricity, resolution, gray scale, color, POG, POD

Testing Equipment Solution – Intelligent Automatic Inspection

KYUNGKU TECHNOLOGY Testing Equipment Solution – Area Controlling Inspection

Testing Equipment Solution – Chipset Inspection

KYUNGKU TECHNOLOGY Testing Equipment Solution – Area Controlling Inspection

Testing Equipment Solution – Chipset Inspection

3rd. Generation Chipset Testing Equipment -- ATE Series

Pick & Place accuracy up to 0.02mm, high efficiency, high stability

Size	2450x1960x1880mm Excluding monitor & 3-color light
Function	Achieving size 2x2 - 8x8mm chipset testing 4 groups of suction nozzle simultaneous work
UPH	3600 PCS/H

KYUNGKU TECHNOLOGY Testing Equipment Solution – Components Sorting

Testing Equipment Solution – Memory Chipset Sorting

K YUNGKU TECHNOLOGY

Testing Equipment Solution – Component Taping

Components Taping Equipment -- FX Series

AOI Appearance Checking False Rate < 0.05%

Size	1200x950x2000mm Excluding monitor & 3-color light
Function	Electricity Testing, Marking, 6-side Checking, Taping
UPH	50 K/H (Max)
Testing Item	SOD, SOT, SOP, QFN, DFN, etc

KYUNGKU TECHNOLOGY Testing Equipment Solution – AOI Appearance Inspection

Chipset 2-side AOI Appearance Checking Equipment -- AOI Series

Tray Loading, Good Ones Unloading & Positioning, Not Good Ones Picked Out, Comprehensive Compatibility

Size	1800x1800x1970mm Excluding monitor & 3-color light
Testing Item Size	Tray size compatible with 2", 3", 4" and can be customized, chipset size: 1.4x1.5mm (Min)
UPH	30 K/H (Max)
Function	Back tin sphere loss, front face scratch, dirty, chipping, crack etc. Tin sphere height testing (reserved)

Testing Equipment Solution – Fingerprint Inspection

KYUNGKU TECHNOLOGY Testing Equipment Solution – Automatic Combination Line

KYUNGKU TECHNOLOGY Testing Equipment Solution – Optical Distance Inspection

Optical Distance Testing Equipment -- MMI Series

2-Station Device, Support SingleTesting Use

Size	600x500x650mm Excluding monitor & 3-color light
UPH	235PCS/H
Testing Item	Gravity, Gyroscope, OIS, Distance sensing without obstruction, Distance Sensing 5cm, Distance Sensing 3cm, Optical Sensing 0 Lux, Optical Sensing 500 Lux calibration

KYUNGKU TECHNOLOGY Testing Equipment Solution – Automatic OIS Inspection

KYUNGKU TECHNOLOGY Testing Equipment Solution – AOI Appearance Inspection

Testing Equipment Solution – Electricity Inspection

Full Smartphone 6-Station Electricity Testing Equipment -- ELT Series

One worker can proceed 6 group of testing, compact size, high efficiency

800x1360x1620mm
Excluding monitor & 3-color light

UPH

Testing Item

Testing Equipment Solution – Focus Adjustment

CCM 8-Station Focusing Equipment -- FS Series

Simultaneous testing on 8-station CCM module

Size	1600x1350x1820mm Excluding monitor & 3-color light
UPH	600 PCS/H
Testing Item	Focusing, POG & POD, Dispense & UV Curing, SFR Checking, OTP Burning, OTP Checking
Testing Item	Good fixture design, can set up automatic testing fixture

KYUNGKU TECHNOLOGY Testing Equipment Solution – High Speed PDAF Inspection

Testing Equipment Solution – Soft & Hard Tray Fixer

Soft Tray & Hard Tray Fixer

Device fix these scattered materials onto the tray in order

Soft tray fixer

Soft tray fixer is applicable for vulnerable to damage materials and compatible with semi & full auto fixing function, semi-automatic tray fixer UPH is 2000 PCS/H

Hard tray fixer

Hard tray fixer is applicable for not easy damaged materials, UPH is 5000 PCS/H
